HUMAN-MACHINE IMPROVISATIONS

BLACKROCK CASTLE OBSERVATORY (CORK, IRELAND)

A unique and exciting on-stage meeting between human and machine improvisers will mark the debut of two extraordinary machine musicians, io 0.0.1 beta++ and iWife constructed by Han-earl Park and John Godfrey respectively. Featuring Park and Godfrey (guitars), Bruce Coates and Franziska Schroeder (saxophones), and Francis Heery (diffusion), the performance will be part critique and part playful exploration, both a boundary-breaking public demonstration of socio-musical technologies and an ironic sci-fi parody.

Presented with funding from the Music Network Performance and Touring Award and support from the Arts Council of Ireland, Blackrock Castle Observatory, the Castle Bar and Trattoria and the UCC School of Music
